

MontaioneMtbTrailArea.com was created thanks to the passion for cycling - especially for mountain biking - of its contributors. For this reason, the owners and contributors of this site, while doing everything possible to maintain the highest accuracy and reliability of the information, do not accept any responsibility concerning errors, omissions, accuracy of gps paths, event dates, addresses of accommodations and restaurants, and any other information contained on this map.

For the above reason, we are happy to share the tracks with you, hoping that you can have fun in our territory, but we won't be responsible for the use that you are going to do, as no one has forced you to walk or ride on this track.

Started from "Casastrada" we take the uphill on a white road and after cycling for about 2.5 km, at the first junction, we turn right direction to "Collegalli". We pass near the villa of "Collegalli" and we continue to follow this trail that passing near some "calanchi" (erosive phenomena due to rainwater that produce large landslides on the slopes of the hills creating a very impressive landscape) will take us between gentle ups and downs until "Balconevisi". Beyond the village of "Balconevisi", famous for the white truffle typical of these hills and with its characteristic church of San Pietro, we go down on the asphalt road until we get to the valley. From here, along a flat white road and along (in the summer) beautiful sunflower fields, we return to the starting point.
